¹ Care Coordination: Seattle Housing Authority:

Not all Seattle Housing Authority clients are Medicaid-funded clients; all are care coordination/assistance-level clients. Some may eventually qualify for Medicaid but may not be functionally eligible or not yet willing to go on Medicaid.

² Aggregate, Non-Registered Data Table - Data Information:

Data collected at the individual client level is reported in the main body of the CPR for each service area. Client data that is recorded in aggregate or as anonymized is reported separately in the Total Aggregate Non-Registered Client table. Client totals in the Aggregate Non-Registered Client table are likely imprecise and contain duplication. These aggregate non-registered totals should not be added to the client-level data reported in the main body of the report.
